

Dear Hiring Manager,

I am writing to express my strong interest in the Working Student position in Packaging systems at DIEL. The role you have described perfectly aligns with my studies, skills, and passion for solving technical challenges. I am excited about the opportunity to contribute to one of the largest groups in this capacity.

My experience in technical sales and procurement has equipped me with valuable skills and experiences that align perfectly with the requirements of this role. During my time as a technical sales professional at NEOTEK, I gained a comprehensive understanding of the logistics and supply chain processes, allowing me to identify critical areas for improvement. This experience enhanced my problem-solving skills and improved my ability to collaborate with cross-functional teams.

In my subsequent role as a Procurement Executive at MOL, I developed a keen sense of strategic sourcing and vendor management. I was responsible for optimizing procurement processes, negotiating contracts in SAP, and expediting the logistics process. This experience equipped me with a strong appreciation for the significance of data-driven decision-making and the importance of leveraging technology for process enhancement.

I am currently pursuing a degree in Electromobility, which has provided me with a solid foundation in data analytics, process optimization, Supply chain and digital transformation. I am eager to apply this knowledge in the supply chain and help to achieve your company goal to ensure compliance with environmental and social standards.

I believe this opportunity will help me improve myself by working with the top professional in the logistic team. Please find my resume attached for your reference.

I look forward to the possibility of an interview where we can explore how my skills and experiences can benefit your strategic purchasing team. You can reach me at +4915226218149.

Sincerely,

Mehran Meer
